

SUSTAINABILITY AT SL GREEN

HIGHLIGHTS

AIR

- HVAC systems are equipped with MERV-13 media filters that capture airborne particles, exceeding the requirements of New York City's Energy Code.
- Mechanical systems increase the supply of outdoor air and continuously cycle fresh, filtered air throughout the building.
- Base building air quality is assured by WellStat, a monitoring system that provides real-time air quality levels that measure indicators including carbon dioxide, particulate matter, VOCs, temperature, humidity, and more.
- Building staff are required to use low VOC emitting products including solvents, carpets, adhesives, paints, and coatings to maintain optimal indoor air quality.

BUILDING HEALTH & SAFETY

- 420 Lexington Avenue is WELL Health-Safety Rated, under an evidence-based, third-party verification of the effectiveness of our operational and maintenance protocols.
- Janitorial staff conduct high frequency cleaning and sanitization using green cleaning products.
- Construction materials used at 420 Lexington Avenue are LEED-compliant, recycled, responsibly sourced, and non-toxic.
- SL Green provides training on emergency preparedness and workplace safety to building occupants and coordinates response drills quarterly.

ENERGY

- 420 Lexington Avenue is equipped with automated control systems.
- LED lighting systems are installed throughout building common areas to increase energy efficiency.
- SL Green's Engineering team uses a real-time energy management platform (iES EnergyDesk) to monitor energy use in 15-minute intervals and respond to building conditions promptly.
- SL Green invests in capital upgrades and commissions building systems to ensure they are maximizing performance.

RECYCLING

- 420 Lexington Avenue deploys a color-coordinated recycling procedure to minimize waste sent to landfills.
- We conduct annual waste audits to identify areas for waste diversion improvement and develop corrective action plans.
- We offer free recycling training sessions to tenants.
- Janitorial staff uses double-barrel waste bins to ensure waste streams remain separated and are trained annually to maintain recycling best practices.
- We offer complimentary e-waste pick-up to tenants to ensure materials are properly recycled.

WATER

- Existing toilets, urinals, faucets, and showers have been upgraded with low-flow fixtures, performing 20% above code requirements for water conservation.
- Building engineers review water logs daily to compare trends and identify potential water loss.
- SL Green disinfects cooling towers twice a year and conducts testing for legionella bacteria every 90 days.

BUILDING ACHIEVEMENTS

TENANT PARTNERSHIPS

We support tenant sustainability reporting through data sharing across energy, emissions, water, and waste.

- SL Green partners with tenants to pursue a free energy analysis through the NYSERDA Commercial Tenant Program which helps to identify energy saving opportunities within tenant spaces.
- We promote recognition of tenant sustainability practices through the Tenant ENERGY STAR program.
