

420 Lexington Avenue

WiredScore fact sheet

Connectivity isn't a nice to have, it's a requirement

That's why 420 Lexington Avenue has worked with WiredScore to measure, improve and certify its digital connectivity.

WiredScore is the world's only internationally recognized digital connectivity rating scheme. 420 Lexington Avenue has been awarded a WiredScore Platinum rating for its outstanding digital connectivity!

WiredScore
PLATINUM

What does this mean?

Connectivity

Five or more high-speed internet providers are available (fiber or fixed wireless) giving tenants options at a competitive rate.

There is reliable mobile performance for at least two operators in the building for tenants to connect or use as a backup internet solution.

Fixed wireless connectivity is ready to deliver over-the-air high-speed internet to tenants. This alternative to fiber can limit risk of outage.

Fiber connectivity is ready to deliver high-speed internet to tenants.

There is fiber fully distributed across the building for at least one provider to provide tenants with faster installation time and minimum disruption.

There are diverse points of entry on different sides of the building and diverse internal routes to telecommunications room(s) or riser(s), to prevent single points of failure.

Risers benefit from a full physical diversity to increase resiliency of tenant connectivity services.

There is spare capacity at the building points of entry to enable faster installation times and minimum disruption for new internet service providers.

There is capacity available throughout at least one riser to enable faster installations of new connectivity services.

There is space available in the telecommunication room(s) to accommodate new internet service providers, enabling faster installation times.

Connectivity options

Fiber/Fixed Wireless	Distribution
Altice	Full Distribution
AT&T	Partial Distribution
CenturyLink	Full Distribution
Cogent	Partial Distribution
Crown Castle Fiber	Partial Distribution
Spectrum Business	Partial Distribution
Towerstream	Partial Distribution

Infrastructure

The space allocated for service provider equipment is secured and dedicated to improve data security and reduce risks of accidental damage.

Access Readiness

There is a signed access agreement available with at least one internet service provider to speed up installation and offer full transparency to tenants.

Get online faster!

As a tenant in a WiredScore certified property you can leverage WiredScore internet concierge services for free to help you get set-up with great internet or voice services. No cost and no obligation to you.
